PARTNERSHIP OPPORTUNITIES TO REACH

ASPIRING EDUCATORS AND THEIR TEACHER LEADERS

SPONSORSING, EXHIBITING, ADVERTISING & MORE!
About Educators Rising

Educators Rising is a national movement designed to cultivate a new generation of highly skilled educators by guiding young people on a path from high school through college and into their teaching careers. Students join chapters at their schools and take courses led by teacher leaders. Schools, districts, and State Departments of Education partner with institutes of higher education to offer students dual credit and feed teacher preparation programs. Communities come together to provide pathways to grow and diversity the teaching profession.

Traditional teacher programs nationally have seen a decline of 35% since 2013, and the demographics of teaching continues to be 82% white and 76% women, where the student demographic is 52% students. **Educators Rising guides nearly 20,000 impassioned students, of whom 52% identify as students of color, to bolster the enrollment of teacher preparation programs.** By working with aspiring educators who reflect the demographics of their communities and who are passionate about serving those communities through public education, Educators Rising is changing the face of teaching. See an example of our success in [Connecticut](#).

Educators Rising is comprised of nearly 20,000 members in 930 chapters with 32 official state affiliates, and members in all 50 states plus the District of Columbia.
